- HTML & CSS
- JAVASCRIPT

Experiences

Audit Analyst - Brand Partners Middle East - Riyadh *2026 - Current*

- Designed and maintained interactive Power BI dashboards to monitor daily performance, compliance, and KPI achievement across major retail partners, including Lulu, Carrefour, Danube, Othaim, Nesto, and Panda. Supported four major clients, Americana, Herfy, Foom, and First Mills, by transforming audit data into actionable business insights, enabling timely decision-making, improved operational visibility, and enhanced performance management for teams and supervisors.

Operation Supervisor (Data Analyst)
Al Othaim Head Office - Riyadh *2015 - 2026*

- Analyzed complex data and transformed it into actionable insights through executive dashboards. Developed dashboards for CEOs and Vice Presidents, including Auto Replenishment, Sales Comparison, Range Item Availability, Dark Store Availability, Planogram Implementation, and Spice & Nuts Sales Performance.

- Designed and deployed end-to-end automated reporting and email notification systems using Python and virtualized environments. Eliminated repetitive manual processes by scheduling reports and communications to run autonomously, improving operational efficiency, reducing turnaround time, and ensuring stakeholders received timely updates with minimal human intervention.

- Managed a team of 12 Data Analysts and Data Specialists, driving reporting accuracy, process efficiency, and continuous improvement initiatives. Ensured daily follow-up on operational reports for over 400 stores, while maintaining strong coordination with store teams to address feedback, resolve complaints, and support business objectives through data-driven decision-making.

Back End Developer - Eshopi - Philippines *2011 -2014*

- Develop and optimize database structures and queries.
- Monitor application performance and implement improvements.
- Collaborate with frontend developers and business stakeholders.
- Participated in code reviews, testing, deployment, and production support activities.

Education

Occidental Mindoro State College *2010*

- Bachelor of Science in Information Technology
